Banking at your pace.

A familiar OCBC experience, with support that customers can shape around their needs.

↗ Log in to begin. The presentation follows your journey through the app.

Designed for everyday confidence

One app. Different ways to feel confident.

Start with the familiar

Everyday banking stays inside the phone, ready to explore.

Choose your support

Adjust readability, ask a question, or learn one step at a time.

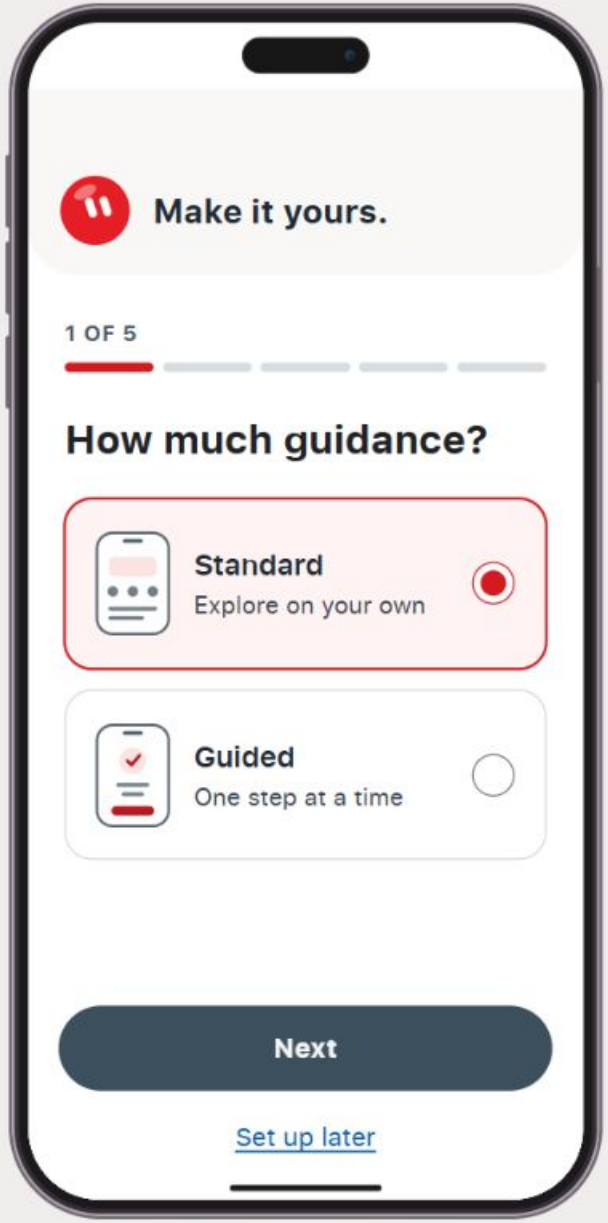

Keep control

The customer decides what to do next. All banking here is fictional.

Set up banking your way.

Choose how the app looks and offers help before you start banking.

↗ Walk through setup, then open Home. Refresh and log in to replay setup with your saved choices.

Designed for everyday confidence

Your preferences come first.

Choose your experience

Pick Standard or Guided and a comfortable text size.

Make support personal

Choose weekly spending tokens, plain language, and when help is offered.

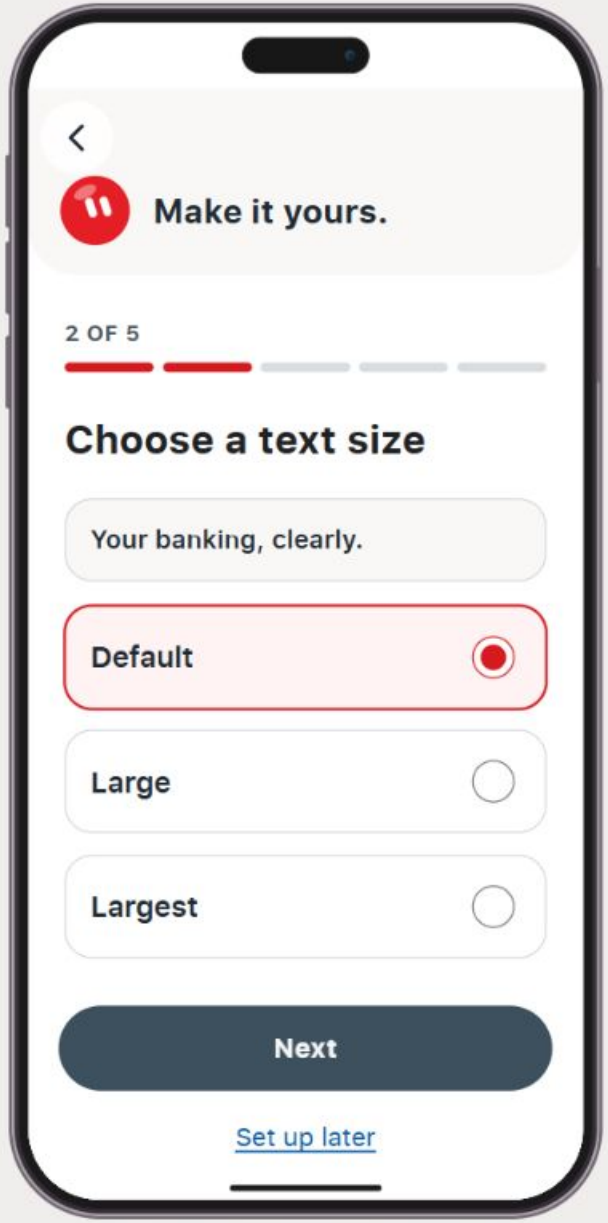

Continue when ready

Save your choices and open Home, or skip setup. You can adjust preferences later.

Set up banking your way.

Continue when ready

Save your choices and open Home, or skip setup. You can adjust preferences later.

Familiar from the first tap.

Bring adaptive support into the banking experience customers already recognise.

↗ Try Customise, Plan, or PayNow. Each feature brings its own story into view.

Designed for everyday confidence

The everyday account is the starting point.

See the essentials

Check the demo balance and recent account activity.

Personalise the experience

Open Customise to adjust text, assistance mode, and explanations.

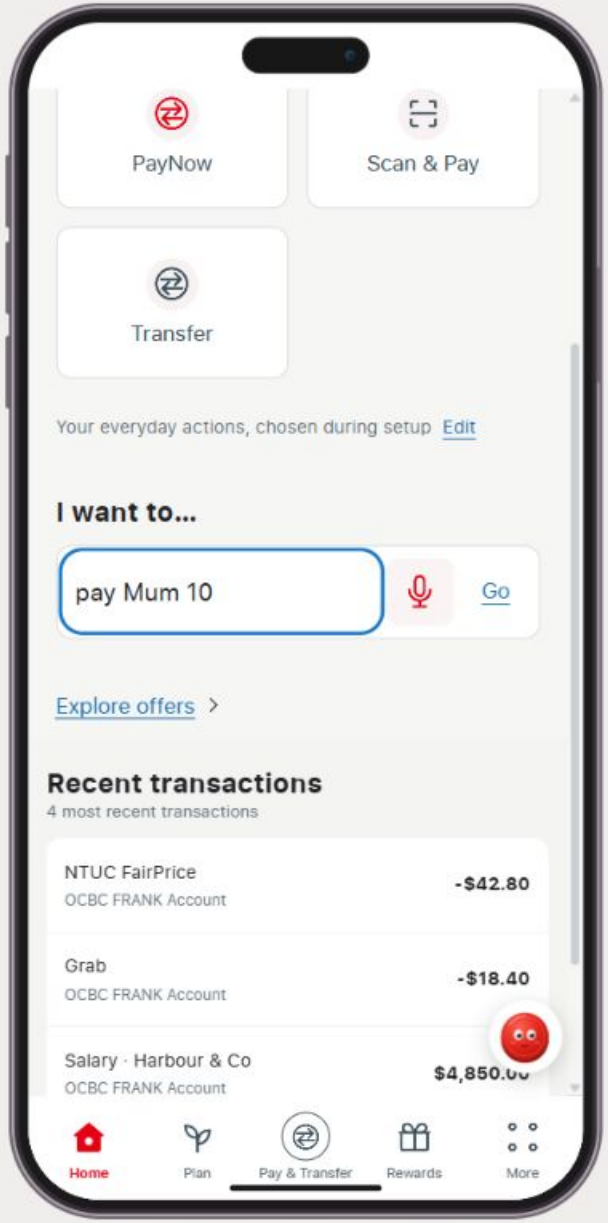

Follow a real task

Try PayNow, explore Plan, or open More for extra support.

Personalise the experience

Open Customise to adjust text, assistance mode, and explanations.

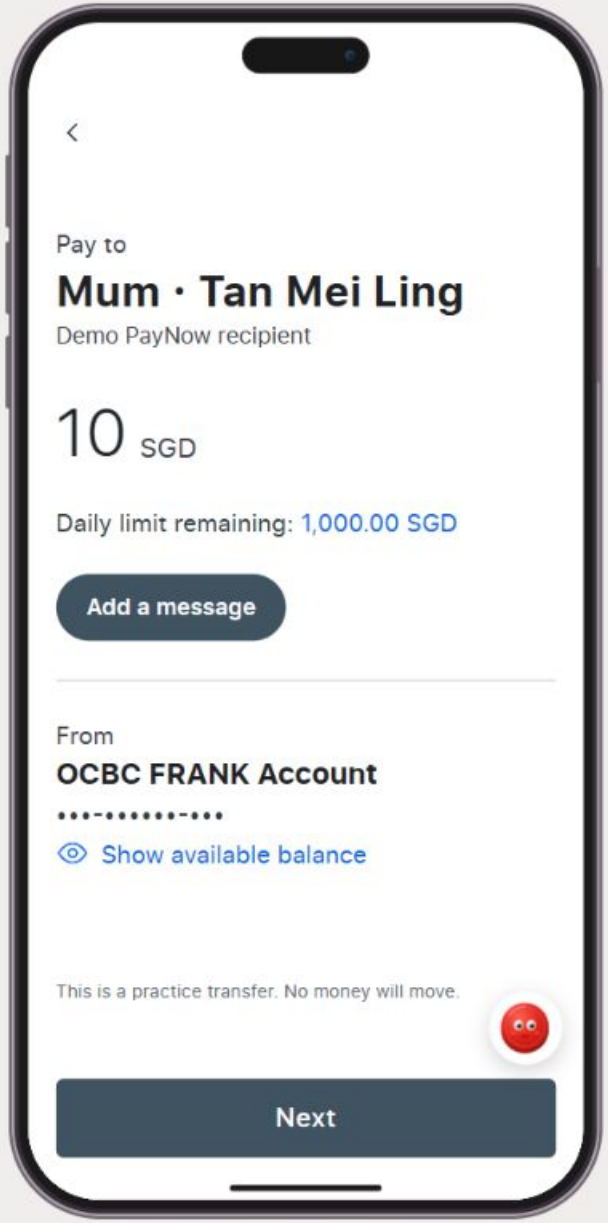

Follow a real task

Try PayNow, explore Plan, or open More for extra support.

Check before you send.

Make the amount, recipient, and available balance easy to check before continuing.

↗ Try a small amount and tap Next, or enter 20,000 to demonstrate recovery.

Designed for everyday confidence

Small checks that help prevent mistakes.

Name and amount together

The recipient stays visible while the customer enters the payment.

Check available money

Show available balance without leaving the task.

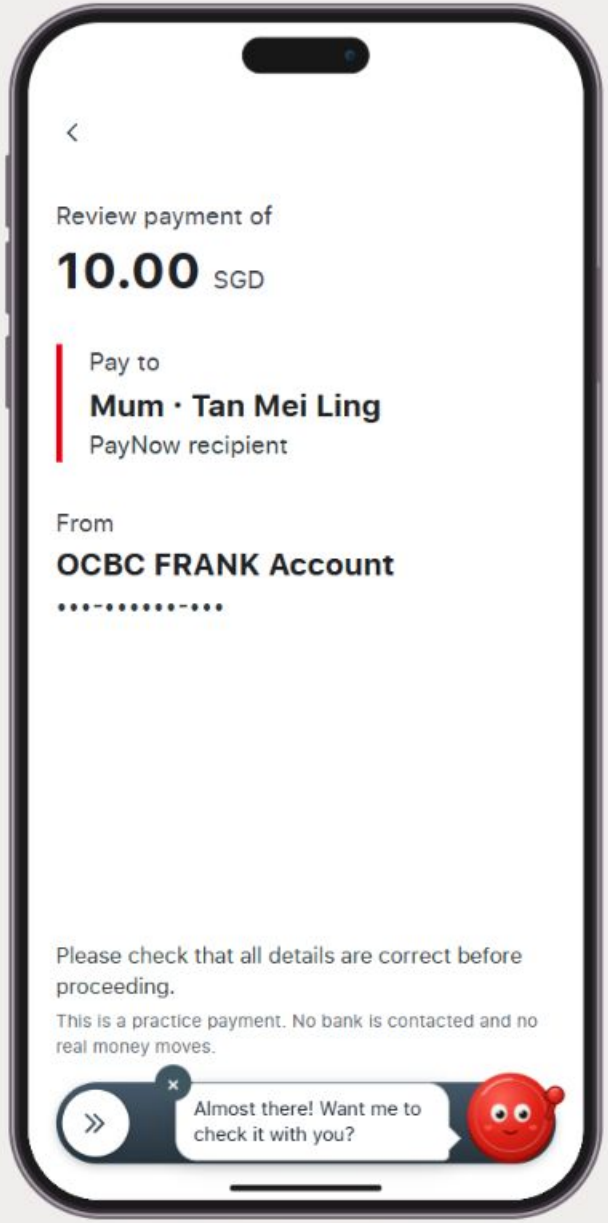

Review comes next

Valid amounts continue to a separate review screen before confirmation.

One more look. Your choice.

Give the customer a deliberate moment to verify the payment before confirming.

↗ Confirm a small practice payment, or go back to edit it.

Designed for everyday confidence

Confidence comes from seeing the details.

Check the essentials

Read the amount, recipient, and account together.

Keep a way back

Edit the details if something looks wrong.

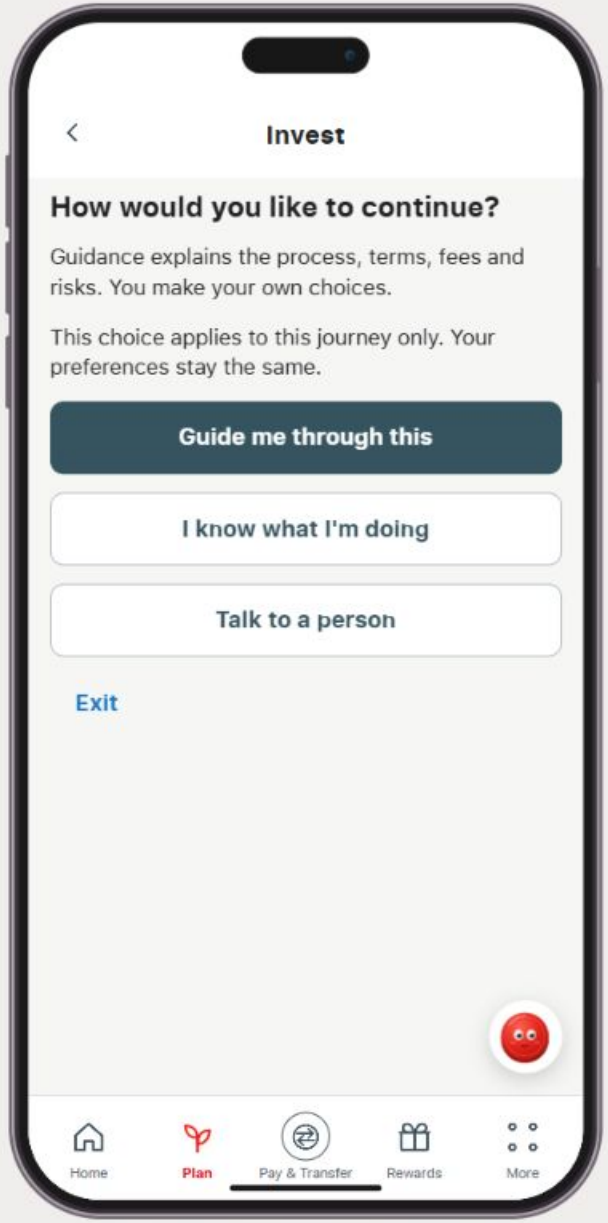

Confirm intentionally

Only confirmation records the fictional transfer in this demo.

Understand it. Then decide.

Follow the investing process through terms, fees, risks, review and explicit confirmation.

↗ Choose guidance, read each step, then review and confirm process completion.

Designed for everyday confidence

A practice journey from curiosity to confidence.

Choose guidance

Guidance applies only to this journey and leaves preferences unchanged.

Understand the process

Read key terms, fees and risks. No product, amount or allocation is selected.

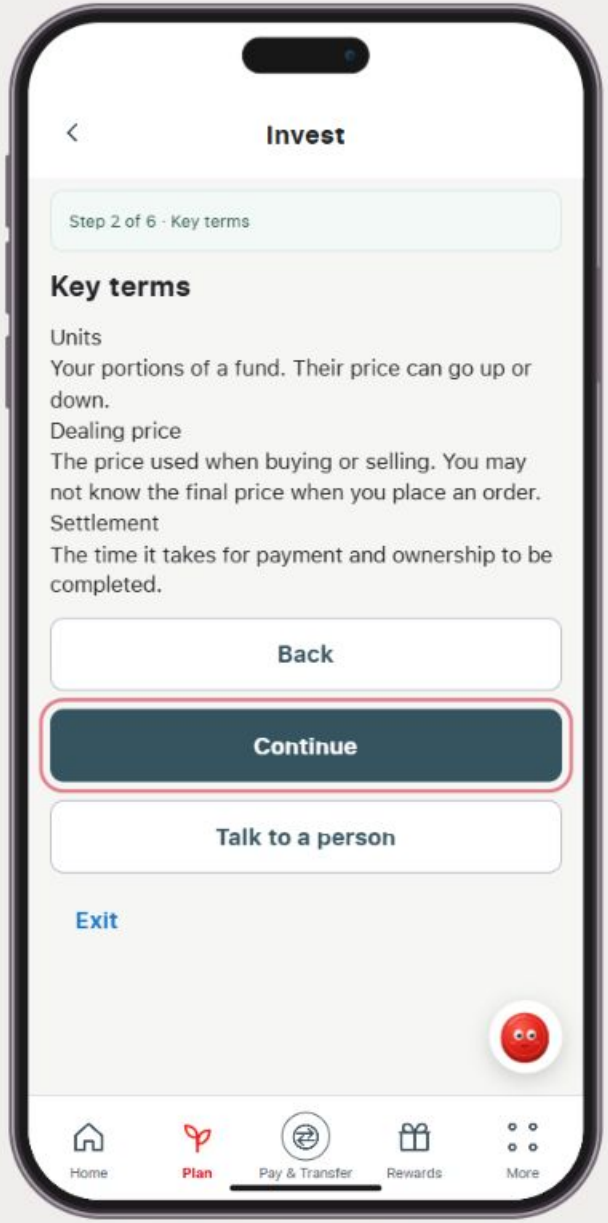

Review and confirm

Progress stays on this device. Completion places no order and moves no money.

Understand it. Then decide.
